Physics coursework

I am a product designer, user experience designer, software developer, and visual designer, with more than 30 years of experience. Combining technical and creative ability with strategic vision, I possess the ability to lead both creative and technical teams, as well as deliver high quality work as an individual contributor in both the design and engineering realms.

I have been involved in the machine intelligence space for the last decade. I am currently interested in how AI can be used to create responsive, context-aware, AI-generated user experiences.

TIMELINE

Manager, User Experience Design at H2O.ai

H2O.ai is a leading AI cloud company, on a mission to democratize AI. At H2O.ai, I filled multiple roles as a manager, Lead UI Engineer, UX Designer, and UI Designer.

HIGHLIGHTS

- Managed teams developing multiple products ranging from *H2O AI Cloud*, *Document AI*, *Feature Store*, H2O.ai marketing website, and others.
- Managed teams spanning many time zones, skill sets, and projects to establish principles of engineering and design excellence.
- Led development of component libraries for internal development to reduce redundancy, and speed UI development across projects.
- Led development of internal design system to create coherent, usable interface designs across multiple products.
- Mentored UI Engineers and Designers to develop a collaborative approach to designing and developing software products.
- Worked with Product and Engineering teams to develop pathways for ideating and defining product visions, defined by clearly designed artifacts that can be easily understood by all stakeholders, from Sales, to Product, to Design, to Engineering.
- Increased collaboration and communication across all product stakeholder teams.
- Contributed code and design to many projects and products including *H2O AI Cloud*, *App Store*, *Feature Store*, *Document AI*, *h2oGPT*, *Enterprise h2oGPTE*, and *UI Kit*.

2022

UX Designer / UI Engineer at H2O.ai

- Led a team of UI Engineers developing and refining the user interface of the *H2O AI Cloud* platform.
- Developed multiple AI-powered auditing applications for PwC. Lead UI Engineer and Designer for *Journals.ai*, *GL.ai*, *Fit.ai*, *Controller.ai*, *Cash.ai*, and *Audit.ai*.
- Designed and built interactive data visualizations for PwC products.
- Designed and built interactive labeling applications for labeling large data sets for supervised learning models.

2016

Principal at fohldesign

Contract design and software development.

HIGHLIGHTS

- Clients include Information Governance Solutions, Numenta, Rainfinity, Envive, Taos Mountain, Mondo Media, Meyer Cookware, Intuit, Verio, Sun Microsystems, Seagram, Meyer Cookware, Envive, PlasmaSeal, and Hanuman Medical, Fast Company Magazine, Red Herring Magazine, PC Magazine, Chicago Tribune, Washington Post, Games Business Magazine.
- Designed and built front end of [Virgo](#) retention and privacy compliance software for Information Governance Solutions.
- Jurist for Numenta's [2015 HTM Challenge](#).

2013

Creative Director at GTxcel

GTxcel offers a suite of products and services to help magazine publishers diversify their revenue streams.

As Creative Director, I was involved in both developing the core product offerings, and led the professional services tied to the products.

HIGHLIGHTS

- First employee. Helped to build the company from the ground up to a head count of over 100.
- Technical, creative, and team lead of *Rivista* product. *Rivista* allowed magazine publishers to create a single website that will work beautifully on any device, from a mobile phone to a desktop computer, through the use of responsive design techniques.
- Oversaw the design of over 50 custom websites, as well as standardized themes used in the implementation of over 200 magazine websites, managed by our own content management system product.
- Key contributor on the development team for *Rivista*.
- Earned PHP 5 Zend Certified Engineer certification.
- Drafted technical specifications, product road maps, and quality assurance regimes for *Rivista*.
- Supervised and implemented online advertising creative campaigns.
- Designed and developed all company branding, website, and printed promotional materials.
- Participated in business development, investor relations, marketing, and sales.

2005

For the sake of brevity, career history prior to 2005 has not been included. However, greater detail can be provided upon request.
